## Club night. What did you think?

Posted by kairos - 2009/11/10 16:19

---

I have been waiting for a reaction to the new club night .As there has been no response I thought I would pen a few words. Have we got the mix right?

Positive or negative comments gratefully received.

Don't forget the next club night is Sunday 15th November.

Free entry for club members, Tea,coffee and biscuits.

Room for flying small helicopters etc.

Come and try your hand on the simulator.;

I will be demonstrating covering and

there will also be a table set aside for any aeromodelling related item you want to sell.

Hope to see you Sunday,

Richard.

Hi Richard

i've jotted down a few word about the Club night in the News Letter, and yes i think it went very really well. I was pleasantly surprised to see so many people there considering it hadn't really been advertised. Should be interesting next week with you're Covering Demo, looking forward to it. Plus all ready had a few people telling me that there having a bit of a clear out and looking to get rid of a few models and few olds and sods at the table sale.

Thanks Barry,

May be you can give us a short talk on aerobatics some time?

It is always nice to have some feed back.

Much appreciated.

Richard
